DAY 2 | SUNDAY 3 AUGUST 2025

- Full-Day Iguazú Falls Argentine side (Iguazú National Park)

Today we will pick you up from your hotel and drive you to Iguazú National Park, on the Argentine side. The falls

are surrounded by a humid subtropical forest where the exuberant vegetation is home to many different species of wildlife. Our guide will help you spot some of them: toucans, parrots and coatis, just to name a few!

Lower and upper walkways weave in and around the falls, permitting up-close and personal experiences with this magnificent spectacle of nature. The Argentine side of the falls is filled with a myriad of paths, and walkways which allow you to have an experience from many different perspectives.

You will also have the chance to visit the "Devil's Throat"; the largest of the falls and for many, the most spellbinding. To get to the Devil's Throat, you'll take the ecological train and then walk out along boardwalks.

After walking around and taking pictures of waterfalls, animals and plants, you will have time to have lunch on your own.

This exciting, 7-hour excursion is highly recommended in order to experience the true power of Iguazú Falls!!

You will be driven (private service) to the Brazilian side of the Iguazú Falls. Don't forget your passport!

While Argentina has 80% of the falls on its side, Brazil has the best panoramic view. On the Argentinian side, you have the sensation of being right inside the falls, but only by visiting the Brazilian side you will fully appreciate the immensity of Iguazú falls. Take your time to enjoy it and feel it. Stroll the different walkways and feel the spray of water in your face. Take the boardwalk over the Salto Santa María, it feels like walking on the water! Get closer to the Devil's Throat and feel the power of water!

We are sure this is a day you will never forget. At the end of the tour, you will cross the border again, and will be driven back to your hotel (private service).
