## DEAR ALUMNI & FRIENDS:

*I look forward to spending a wonderful weekend of events with you and your families. You'll have many opportunities to reconnect with old friends, classmates, and favorite professors.*

*Alumni Weekend is a time to learn how the School has changed since you graduated and we'll give you a chance to experience for yourself how we are reimagining business education and preparing for the School's future.*

*I first came to UNC Kenan-Flagler as an undergraduate student, and returned in 1990 as faculty. I have been with the School in various roles for the last quarter-century, and I can attest that there has never been a more exciting time for the School.*

*Thank you for being a part of our success. The growth of the School depends on the active involvement of alumni – who give generously of their time, energy, and money.*

*I invite you to join me for the State of the School Address on Saturday, April 14th at 11 am. I will reflect on the past year, and introduce a strategy for looking forward to an exciting new era for UNC Kenan-Flagler.*

*Coming home to UNC Kenan-Flagler to celebrate your reunion during Alumni Weekend is one of the most effective ways to stay connected within our incredible community. I hope you have a renewed bond with your classmates and this amazing School. Enjoy your time in Chapel Hill, and GO HEELS!*

*Douglas A. Shackelford (BSBA '80)  
Dean / Meade H. Willis Distinguished Professor of Taxation*

**McColl Building, Room 2650** / Join Elizabeth Schneider (MBA 2005), chief normal wine person of "Wine for Normal People," a podcast, wine edutainment company and upcoming eponymous book, for a wine class unlike any other.

Wine grapes often have the same names in every region (Merlot, Riesling, etc.), but they can taste drastically different depending on where they are grown and who makes them—often causing people who thought they knew Chardonnay, Pinot Noir, or Syrah to scratch their heads and take another look. In this tasting we will taste wines in three pairs. The pairs will be the same grapes that taste nothing like one another (e.g., Cabernet Sauvignon from Napa vs. Bordeaux, which is also Cabernet based). What better way to learn about what a grape really tastes like and what the differences in how countries make wine than to see it this way?
